DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 14 January 2010 has been entered.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Goodhue on 5 November 2009.

The application has been amended as follows:

In claim 19, please amend line 3 as follows:

--a flux balance analysis model utilizing stoichiometric mass--

Drawings

The drawings submitted 10 January 2002 have been accepted.

Art Unit: 1631

Information Disclosure Statements

It is noted that Applicant filed a Petition to withdraw the case from issue on 14 January 2010. The Petition was granted on 20 January 2010. Applicant Petitioned with the submission of the instant RCE such that the three Information Disclosure Statements filed 14 January 2010 could be considered.

Each of the Information Disclosure Statements filed 14 January 2010 have been considered. Reference 2 in the first submitted IDS was not considered and has been lined through to indicate such. The reference was not considered because it lists an incorrect patent number for the cited inventors Woehr et al. It is noted that the Examiner did try to elucidate the correct patent number, to no avail. The second and third IDS submissions of 14 January 2010 have been considered in full. Signed copies of PTO Forms 1449 are included with this Office Action.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: As was stated in the previous Notice of Allowance on 18 November 2009, claims 1-8, 10-16, 19-27, and 30-39 are allowed. The prior art does not teach or fairly suggest the novel step of "applying logic constraints comprising a regulation matrix to the flux balance analysis model to produce an altered flux balance analysis model".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

Art Unit: 1631

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
